

Data Entry If Open/Closed Form

Please fax back to 410-785-1742

(Please use a ball point pen)

Dealer Name	
Dealer ID	Account Number
Name of Subscriber	
Date	
Street Address	
City, State And Zip Code	

****We strongly suggest calling our Dealer Services Department before using this feature****

You may instruct the central station to take action or no action on certain events while the alarm panel itself is armed or disarmed. For example while the buisness is opened and the system is disarmed they do not want called on freezer alarms, however after hours they want to be called on them. Please note, the account must send opening and closing signals and the customer must arm and disarm the system to work properly. Please see examples below.

CODE AND ZONE DESCRIPTION EXAMPLE			PLEASE ONLY HANDLE WHEN EXAMPLE
Code	Zone	Description
